Course Description: Factors in evolution of forest, range, wildlife and related natural resources administration and policies in the United States. Course includes policy components, policy formation implementation, change processes and economic criteria for evaluating policy effectiveness.

Student Learning Outcomes:

Upon satisfactory completion of the course, you should be able to:

- State the key provisions of major natural resource policies
- Explain the historical development of these policies
- Explain the dynamics of natural resource policy development, and identify factors that influence the success of resource policy implementation
- Critically evaluate natural resource policies using basic economic tools (e.g., graphical welfare analysis), and by applying ecological, social, and political criteria
- Develop a policy position paper that applies the above to a specific natural resource policy

Forests and other natural resources serve many economic, social, and environmental needs of people around the world. The patterns of use and management of natural resources can have a profound impact on the economy and the environment. However, public policies largely dictate the patterns of use and management of natural resources thereby influencing the lives of diverse stakeholders including future generations. Therefore, it is critical for resource professionals to understand concepts, administration, and economic and environmental impacts of resource policies.

The specific goals of *Natural Resource Policy & Economics* are to help you:

- Develop an understanding of concepts and theories of natural resource policy and economics,
- Further your knowledge of major natural resource policies and public policy processes, and
- Advance your ability to critically evaluate natural resource policy issues from economic, policy, environmental, and social perspectives.

Class Format:

Each week we will cover different topics using lectures and assigned readings, quizzes, and occasional out-of-class assignments. Please see the *Course Schedule* for more information about topics covered. In addition to quizzes and assignments, open-book exams are used to assess learning. Please see *Evaluation of Student Learning* for more information about exams and grades.

The class is taught in 25-minute modules, with each module including one 12-18 minute lecture followed by a brief quiz and discussion. Since the live class meets twice per week – one hour and 40 minutes on Tuesdays and 50 minutes on Thursdays – we should cover six modules (two on Tuesday and four on Thursday) in a typical week.

Lectures are recorded live and, usually within 24 hours, posted in Canvas, where they will be accessible throughout the semester. Please be patient if technical difficulties arise, and let the instructor know as soon as possible if you cannot access lectures or other course materials.

Collaborative Learning Group:

Each student will use Canvas to self-select (or will be assigned by the instructor to) a Collaborative Learning Group (CLG) of 3 – 5 students. The purpose of the CLG is to provide a ready network of peers that can meet regularly to discuss class readings, help with exam preparation and assignments, and generally improve your understanding of course topics. Students are encouraged to meet regularly with their CLG, and, occasionally, you can earn bonus points for CLG-related work. There will also be a space in Canvas for CLGs to meet or to post questions, comments, and discussion threads.

Course Policies:

Quizzes and attendance: Active engagement with the course is critical to your success in FNR4660. To encourage active engagement, you will be assessed via brief quizzes that follow each lecture module. There will be approximately 70 of these quizzes during the semester. You can drop 10. For credit, quizzes must be completed *before* taking the exam covering the quiz material.

Students in the live section are expected to attend all lectures, to read the assigned materials, and to actively participate in class discussion. Participation helps synthesize class material, improves public speaking skills (very important regardless of your career path), and allows the class to draw from students' diverse experiences, backgrounds, and insights. Active participation includes sharing thoughts, asking relevant questions, summarizing information in a way that informs discussion, and otherwise engaging with the class in a professional manner.

Also, please do not be late to class. Please also note that the lectures are recorded, so if you are late, please take your seat as quietly as possible. During discussions, please be respectful and polite to your classmates, and please silence your phone.

Students in the online sections are expected to stay current with all readings, lectures, and quizzes; to submit assignments and take exams on the scheduled dates; and to regularly communicate with their CLG group about the lectures and readings, and with the instructor about any questions or concerns about the course.

Make-up exams and late assignments: Make-up exams are given at the discretion of the instructor, but they are generally not allowed, particularly without a 14-day advance notice or a valid doctor's note. Assignments are due via Canvas by midnight of their due date. Unless otherwise agreed, late assigned work will be penalized as follows:

-10% if between 1 minute and 24 hours late

-20% if 24 to 48 hours late

-30% if 48 to 72 hours late

-40% if 72 to 96 hours late

Not accepted if more than 96 hours late

Requirements for class attendance and make-up exams, assignments and other work are consistent with university policies, which can be found at:

<https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>

UF Policies:

University Policy on Accommodating Students with Disabilities: The Disability Resource Center coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation. You must submit this documentation prior to submitting assignments or taking the quizzes or exams. Accommodations are not retroactive, therefore, students should contact the office as soon as possible in the term for which they are seeking accommodations. Contact: 0001 Reid Hall, 352-392-8565, www.dso.ufl.edu/drc/

University Policy on Academic Misconduct: As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: "We, the members

of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.” You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g. assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For more information regarding the Student Honor Code, please see:

<http://www.dso.ufl.edu/SCCR/honorcodes/honorcode.php>

Netiquette: Communication Courtesy: All members of the class are expected to follow rules of common courtesy in all email messages, discussions and chats.

<http://teach.ufl.edu/docs/NetiquetteGuideforOnlineCourses.pdf>

Software Use: All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

Getting Help with E-learning:

For issues with technical difficulties for E-learning, please contact the UF Help Desk at:

- Learning-support@ufl.edu
- (352) 392-HELP - select option 2
- <https://lss.at.ufl.edu/help.shtml>

Any requests for make-ups due to technical issues **MUST** be accompanied by the ticket number received from LSS when the problem was reported to them. The ticket number will document the time and date of the problem. You **MUST** e-mail your instructor within 24 hours of the technical difficulty if you wish to request a make-up. Should you have any complaints with your experience in this course please visit <http://www.distance.ufl.edu/student-complaints> to submit a complaint.

Campus Helping Resources:

Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university’s counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.
